## SUMMARY

I have a solid foundation in computer science and engineering principles, including programming, algorithms, data structures, and software development. Our coursework has equipped you with proficiency in languages like Java, Python, C/C++, and more, along with experience in areas such as computer architecture, operating systems.

Through Our coursework and projects, you have honed your problem-solving skills. We can analyze complex problems, break them down into manageable components, and develop effective solutions using both theoretical knowledge and practical.

## LANGUAGE

English ● ● ● ● ○

## EDUCATION

### Bachelors in Computer Engineering

Deep High School / Kathmandu / October, 2019 - Present

As a computer engineering student, I am encouraged to think innovatively and creatively to tackle challenges and explore new ideas. Our coursework and projects likely involve designing and implementing novel solutions, fostering a mindset of innovation and experimentation
